ABOUT

BNB Cherries is a place where you can hire farmers that will **non-stop grow Cherries for you.**

Therefore you can **exchange cherries for BNB rewards.**

EARN

MINING

After all expenses for mining you will be able to receive on average **8% of your initial investment **every day.****

REFERRAL

Convince your friends to hire farmers and **receive 12% of their total investments.**

COMPOUND

Re-invest your daily rewards to **hire more farmers that will non-stop grow Cherries and increase your earnings exponentially.**

FEES

5% fee on invest and sale of cherries

There is no fee taken when you re-invest your rewards

We use collected fees for marketing and development of our ecosystem

STRATEGY

Everybody has its own strategy, but the most popular and profit-proven strategy from experienced miners is **6/1.**

It means to **re-invest 6 times per week and **take profits 1 time per week.****

Taking profits too often will exhaust your mine and therefore decrease your return on investment in the short and in the long run.

FAQ

How does BNB Cherries work?

You deposit your BNB and every day you will earn 8% on your invested amount that accrues rewards throughout the day. Please note, that your ROI will decrease with each subsequent claim.

To keep the highest ROI of 8% per day and higher, we encourage you to compound your rewards for six days and claim on the seventh day (6/1 strategy). This mechanism is built into the contract

How long will the contract pay out rewards?

As long as there is balance in the contract, there will always be rewards.

What is the best strategy?

6/1. 6 compounds + 1 withdrawal per week. Make an action every day. If you start getting greedy and trying to save up your rewards, your ROI will decrease as well

What prevents the developers from rugging?

The contract is immutable, meaning that once it is deployed the developers have no access to the contract and cannot send anything out of the wallet.

Can I be too late to deposit my funds?

No, the contract is written to incentivize anyone. However, the impact is just very small. If you can get in early, you should consider doing it and start compounding your stake.
